Kalana Geethmal Kumarage

Solutions Engineer | Techno-Commercial & Enterprise Presales

+94 713 788 861 | kalanakumarage@gmail.com | linkedin.com/in/kalana-geethmal | Colombo, Sri Lanka

PROFESSIONAL SUMMARY

Results-driven Solutions Engineer with 2+ years of progressive experience in techno-commercial presales, solution architecture, and enterprise business development across Government, BFSI, Telecommunications, and Enterprise sectors. Proven ability to translate complex customer requirements into compliant, scalable, and commercially viable technology solutions managing multi-vendor ecosystems spanning cloud providers, OEMs, ISPs, and SaaS platforms. Experienced in conducting solution feasibility studies, leading vendor negotiations, developing bid documentation, and delivering compelling technical presentations to senior stakeholders. Combines hands-on telecoms exposure (Sri Lanka Telecom) with active pursuit of Artificial Intelligence and Data Science expertise through a postgraduate MSc programme, bringing a forward-looking perspective to emerging technology adoption and solution positioning.

CORE COMPETENCIES

Presales & BD	Enterprise presales, business lead generation, RFP/EOI/bid management, techno-commercial proposal development
Feasibility & Design	Solution feasibility studies, requirement analysis, solution sizing, BOM preparation, compliance mapping
Ecosystem Management	Multi-vendor coordination OEMs, cloud providers (AWS, Azure, OCI), ISPs, SaaS & software vendors
Negotiation	Vendor pricing negotiation, commercial terms structuring, partner agreement facilitation
Presentations	Executive-level technical presentations, solution walkthroughs, proof-of-concept planning, customer training
Technologies	AI/ML platforms, cloud computing (OCI, AWS, Azure), API integration, RPA (UiPath), data streaming (Confluent)
Sectors	Telecommunications, Government, BFSI, Enterprise — community platforms, air cargo systems, port systems

PROFESSIONAL EXPERIENCE

Solutions Engineer — April 2025 – Present

Just In Time Technologies Pvt Ltd, Colombo, Sri Lanka

- Lead feasibility studies and solution design for large-scale government and enterprise technology programmes, translating complex customer requirements into technically compliant, commercially viable architectures aligned with budget and regulatory constraints.
- Drive techno-commercial proposal development for RFPs and EOIs — coordinating BOM preparation, solution sizing, vendor compliance mapping, and pricing negotiations with OEMs, cloud providers, ISPs, and SaaS vendors to ensure competitive and deliverable bid submissions.
- Manage a multi-vendor partner ecosystem across cloud platforms (OCI, AWS, Azure), principal solution vendors, and ISPs, negotiating commercial terms and ensuring suitability for local regulatory, operational, and infrastructure requirements.
- Lead design and positioning of large-scale community platforms including Air Cargo Community Systems and Port Community Systems for government-sector clients, coordinating cross-functional teams spanning sales, delivery, legal, and finance.
- Deliver high-impact technical presentations and solution walkthroughs to C-level and government decision-makers, explaining system architectures, platform capabilities, and deployment roadmaps to drive informed procurement decisions.
- Support localization and adoption of globally recognized platforms including Confluent, UiPath, and APIsec — ensuring alignment with local market requirements while maintaining scalability and future readiness.

Associate Presales Engineer August 2024 – April 2025

Just In Time Technologies Pvt Ltd, Colombo, Sri Lanka

- Executed end-to-end presales support activities across Government, BFSI, Telecommunications, and Enterprise sectors — conducting requirement analysis, vendor technology evaluations, and commercial feasibility assessments for multi-domain IT solutions.
- Performed structured vendor and technology evaluations benchmarking technical fit, integration feasibility, compliance, and deployment constraints — providing actionable recommendations that reduced solution selection risk for enterprise clients.
- Delivered technical demonstrations and solution walkthroughs to customer stakeholders, translating architectural complexity into business-value narratives to advance sales opportunities through technical evaluation stages.
- Negotiated with vendor and partner representatives during proof-of-concept and evaluation phases, coordinating pricing inputs and technical scoping to support competitive and commercially sound proposal submissions.

Technology Evangelist Intern February 2024 – August 2024

Just In Time Technologies Pvt Ltd, Colombo, Sri Lanka

- Researched and analysed emerging technologies, platforms, and industry trends to support internal solution positioning, capability planning, and market differentiation across Government, Enterprise, and Telecommunications verticals.
- Collaborated with presales and engineering teams on real-world solution engagements, contributing to proposal drafting, technical documentation, and partner communication activities.

Intern — System Administration & Network Infrastructure March 2023 – September 2023

Sri Lanka Telecom PLC (SLT), Colombo, Sri Lanka

- Gained direct exposure to telecommunications network infrastructure components , server environments, and virtualisation technologies.
- Supported system administration activities across virtual machine environments, operating systems, and core infrastructure components, developing foundational understanding of enterprise-grade telco network operations.

EDUCATION

MSc Data Science and Artificial Intelligence 2026 – Present

University of Sri Jayewardenepura | In Progress

BSc (Hons) Data Science Completed

London Metropolitan University

National Diploma — Electronic & Telecommunication Engineering Completed

Institute of Technology, University of Moratuwa

KEY CERTIFICATIONS

AI & Cloud: OCI Generative AI Professional (2025) | OCI AI Foundations Associate (2025) | Supervised Machine Learning — DeepLearning.AI | Mathematics for Machine Learning — Imperial College London

Networking & Security: Cisco Black Belt Fire Jumper SE — Secure Network Analytics | Cisco Black Belt AI Fundamentals Presales | API Security Fundamentals — APIsec University

Automation & Data: Automation Business Analyst Diploma — UiPath | Automation Implementation Methodology — UiPath | IBM Data Science Methodology | IBM Tools for Data Science | Statistics for Data Science — Coursera

PROFESSIONAL ASSOCIATIONS & PROJECTS

Corporate Member, **Sri Lanka Association for Artificial Intelligence (SLAAI)**

Selected Projects: Air Cargo Community System (ACS) | Port Community System (PCS) | Web Services Portal | Poverty Prediction & Classification Using Machine Learning | Arduino-Based Smart Classroom
